

## Bush-Craft Starter Pack .01

### Congratulations!

I hope you enjoy the update's items and that it'll only add value to your project. In keeping with the same recipe as before, the new items are a little taste of what's available inside the Bush-Craft Extension Pack. Please go download it if you haven't yet got it.

Meshes>Miscellaneous folder, you'll notice has a new subfolder called **Update\_01** purely as an easy reference to the new items.

Although the Prefab names have kept the same logic, texture maps the same variety and modelling the same style, under Prefabs the new items are mixed in with the rest.

Either way, here's the list of new items: New Billy pot variation, Candle, Lighter, Spear, Stick, Tarp

Please keep an eye out for new releases and updates. We'll also greatly appreciate it if you can star-rate the asset or even take the time to write a comment.

Thanks again!
